An Exciting Day in Wall Street. New York Stock Exchange. There has been nothing like it since the panic of September, 1873. The sales of railroad stocks were immense, and the shares of the Union Pacific road were quoted at 68 and a fraction, by far the highest price over known for them. This is the road that has attempted to get out of its liability to the Government and that is now being proceeded against by the Attorney General of the United States for non-compliance with its agreements. Whether the stock has a real intrinsic value has never been certainly known until recently. After the panic it fell bolow 15, and would have fallen to zero had any state in its flight than Sodom ever knew. It is not a corpse of two or three days' in get months, since last midsummer it has been rotting in the face of the unit of the same in the sear of the point of the line in the same rotting in the face of the up on a xhibition, and the printing presses are cutting up the loathsome carcass and making it into mince meat for a savory repart, morning, noon and night. And, as the periodicals do not turn it out fast the stock has a real intrinsic value has never been certainly known until recently. After the panic it fell bolow 15, and would have fallen to zero had any New York Stock Exchange, There has and would have fallen to zero had any large amount of it been offered. Those who held the stock originally got it for a mere song, and some of them placed little or no value on it. The road was built by the wheel-within-a-wheel syndicate, of which Oakes Ames was the illustriand front. In other it was built by a "ring" with whom a contract was ostensibly by the Union Pacific Company, which Company the ring controlled. The stock (at that time considered valuless,) amounts now to \$36,745,000, and the first second and third mortgages to \$73,197,age which amounts to \$27,236,512. and it is for the interest on these bonds its gross earnings for last year were over according to the report of its directors. they notted nearly nearly six millions. We confess that we should have a much higher appreciation of John Mitchel's devotion to the cause of liberty had his record in this country not been so utterly inconsistent with his record in Ireland. He came to the United States after his eacape from penal servitude in Van Dieman's Land, and immediately, identified himself with the pro-slavery element of the country. At the outbreak of the rebellion he turned his hand against the Government that gave him protection, and joined the conspiracy to make a slave empire of this republic. The Friday night meeting at the Tabernacle was attended by a very large
congregation. Long before the time aspointed for the opening the regular seating capacity of the chapel was occupied,
and for upwards of fifteen minities prior
to the service the unlers were kept busy
in supplying camp-stools to the eager
crowd, so that by the time Dr. Talmage

was literally packed. After the singing
of a hymn by the congregation and the
saying of a prayer by Brother Clark, Dr.

is this report that has stimulated speculation in the stock to such an extraordinary degree. There is no telling where the price may go. The Board of Directors own the principal part of the capital. At the recent election in Boaton, out of a total of 367,450 shares, some 329,668 shares were sold by the board. The principal man in the Board is Jay Gould, supposed to be the "sickedest man" in Wall street, or in any other street, for that matter.

Another feature in yesterday's excitement was the advance in gold, which rose to sevenisen premium. It would seem as if the clique that is squeezing the market had gained complete coutrol of the "shorts" and other parties in need of gold pay as high as one per cent per day for its use. The price of money was also forced up to 7 per cent and a bonus, for effect on stocks, which, during a part of the day, declined sharply, and finally closed excited and unsettled.

Triets of West Virginia.

It has been shown in times past in our columns that the territory immediately bordering upon and north of the Baltimore & Ohio road in this State included a large proportion, not only of the population, but also of the taxable values of West Virginia. The exact figures in regard to the revenues paid by the three districts since the formation of the State in 1863 up to 1874 are as follows: First District has paid \$2,202,066 13. The Third has paid \$2,202,066 13. The Third has paid \$1,807,723 21.

This shows that the First District has paid \$00,002 86, and the Second \$150,000,000 86, and the Second \$150,000 86, and the Seco PIVE MILLION COLUMNS

bears by the Auditor's books that Ohio county has paid \$007,354 40, which is one-fourth of the amount paid by the First District, or one-tenth of the whole amount paid by the State.

Easter Sunday passed pleasantly with Easter Sunday passed pleasantly with us. Although the price of eggs is very high, still all that could be in any way procured were disposed of very rapidly on Saturday. The old custom is not dead yet, and many seem to almost esteem it a duty to est at least a reasonable amount of eggs on Easter Sunday. It is all right that these old customs should not the, for if there is nothing else in them, they remind us of the times of long ago, when we old folks (7) were young and enjoyed such things.

Colliery Riots in Pennsylvania.

MAUGI CHUNK, March 29.—Intelligence was received here this morning of an outbreak in the collieries at Buck Mountain, Eckley, Drifton, Jeddo, Ebervala and Hazleton. A large mob of a minera in a state of great excitement started simultaneously at Buck Mountain and Eckley with the determination to visit all the mines in their neighborhood, They disagramed the special police from y Philadelphia stationed at Buck Mountain and took the arms along. They then went to Jeddo, where policeman King was shot in the head but not fatally wounded, and policemen Warner and Meyers were badly heaten with clubs and their weapons taken. At the following places they visited, the miners were forced to go with them: Eckley, Drifton, Jeddo and Ebervale. They called at Mount Pleasant colliery, also forcing the men to leave work, atthough their employer is paying the rates of the 1874 basis. Not damage to property has been done so far, but it is not known whether they will reaume work at this colliery. The raider a marched through Hazleton, where Pather O'Harra, a Roman Catholic priest, and vised and exhorted them to return the peaceably to their homes, and at last accounts they were quietly disbanding.

There is a general hope, if the miners countinue their outrageous conduct, that the operators will call on the Governor for troops, and the opinion is expressed that they have gone too far and the time has come for more vigorous measures for the safety of life and property.

Heavy Reductions in Passenger Fares.

Chicago, March 29.—Alter number-less consultations it has been decided to reduce the passenger rates on the Michigan Contral, Michigan Southern, and Pittsburgh & Fort Wayne Railroads as follows: To New York, from \$22 to \$15; to Philialelphia, from \$19 to \$2; to Battimore and Washington, from \$19 to \$2; to Boston and New England points, from \$27 to 18.85. The tickets will be limited to forty-eight hours, but no other restrictions or conditions will be made. The printing is now being dose, and the tickets will be ready for sale on the 1st of April, or sooner. The neutral lines have been forced to take this action, as their traffic to the East has greatly fallen off during the last month. Thus far no reduced tickets have been sold direct to New York and New England points, the reduction being to Philadelphia, Baltimore, and Washington only. But the low rates to the latter cities seriously affected the traffic to the former. As stated yesterday, the passenger traffic of both the Michigan Central and Michigan Southern Railroads has fallen of 50 per cent during the last month, while that of the contesting roads. has fallen off 50 per cent during the last month, while that of the contesting roads,

Mempris, March 29.—River stationviolent and destructive ever carried on in this country. The rates on the Baltimore & Ohio are higher than those established & Ohio are higher than those established by the above roads, and, unless it meets the inew rates, and comes down still lower, its traffic will be transafered to the other lines. The public will not pay \$15 25 to New York, and be subjected to a transfer and the re-checking of baggage, when they can go direct for \$15. It is the general opinion, however, that these rates will not be maintained any length of time. Strenuous efforts are now being made to bring about an amicable settlement between the Baltimore & Ohio and Pennsylvania Raliroads, and should those efforts prove successful, the rates will undustable by the restored again to former figures.

which was made general a few days ago, is still carried on with unrelenting vigor, and the rates are still being cut by some of the fast freight lines. At a consultation between the General Freight Agents of all the lines leading to the East, except the Baltimore & Ohio, held yesterday morning, it was decided to reduce the rates to Boston from 40 cents on fourth class and grain to 35 cents; no change was made in the rates to other Eastern cities. The independent fast-freight lines, however, do not stick to these rates, and some of them are reported as having made contracts for grain to New York yesterday at 22 cents.
